**Yantai Tayho Advanced materials Co.,Ltd** is located in the seaside city of Yantai, which is among the first several open coastal cities in China. We cover an area of 260,000 square meters, own total assets of more than 2 billion, and have more than 1200 employees. Our product ranges from **spandex, meta-aramid, para-aramid to chemicals**, making us the largest high- & new-tech fiber production base of China.

Incorporated from Yantai Spandex Plant, the first special fiber enterprise in China, we specialize in the R&D and production of high-tech fibers. We are a state level new- & high- tech enterprise, being approved as one of the 520 key enterprises of the country. In 2008, **we are listed on Shenzhen Stock Exchange** (Code 002254).

Equipped with advanced technology centers, we have been maintaining strong capability in scientific study and innovation, having developed self-owned intellectual property rights and international advanced industrialization technology of spandex, meta-aramid fiber, para-aramid and etc.

Yantai Tayho Advanced materials Co.,Ltd takes the national high- tech industrial policy as a guide, adheres to professional development path and continuous innovation in the area of special fibers, and experiences rapid growth in recent years.
